

## EXCURSIONES: CANOPY BASE/ ADRENALINA

In the search of an outdoor activity, canopy gives you the opportunity to do it accompanied by a beautiful landscape in the background.

The objective of this activity is to travel through the air along a steel cable, sliding with a harness and a pulley. It is an experience of pure adrenalin.

An unforgettable adventure where you will be able to appreciate the spectacular panoramic view of Potrerillos Valley and Cordón del Plata (El Plata Hill of 6100 metres above sea level), mountain formations of millions of years with geological layers of more than 20000 feet of elevation.

Two circuits carefully designed and inspected to maximize and guarantee your safety throughout the activity. Two or more guides accompany each group of tourists over the course of each of the circuits, the Base and the Adrenalin, this latter corresponds to the full day circuit.
