

## EXCURSIONES: ACONCAGUA EXPERIENCE

We know that entering the Andes Mountains, knowing its Stories and walking the trails of Cerro Aconcagua (the highest in America) is not an everyday thing. It's a unique experience, and that's why we want you to live it in the best way: with us.

This tour was conceived to enjoy the unforgettable landscapes, the great Stories that marked these roads, taking the necessary time to really get in touch with all its corners and discover the best kept secrets. We do not want your trip to be just a picture from the route, but a true EXPERIENCE.

### ITINERARY

We will go southwest along Provincial Route 86, enjoying the landscapes of Cacheuta until we cross the tunnel that connects this town with Potrerillos. We will contemplate the wonderful view of the majestic Cordón del Plata, Mendoza's main source of water, and the picturesque Potrerillos Dam, a mirror of crystal clear water in the middle of mountains. Then, we will make a strategic stop to get a better view of the Valley as a whole. Once we return to the route, we prepare for the highlight of the departure: The Aconcagua Provincial Park. There we will obtain the corresponding permits to make a walk of approximately one hour, which will allow us to experience the majesty of the highest hill in America from the viewpoint of the Laguna de Horcones, within the Park. Back in the van, we will move a few kilometers, until we reach the "Puente del Inca".
